DISCLAIMER

Collective Investment Schemes in Securities (unit trusts) are generally medium- to long-term investments. The value of (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions from the portfolio. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. Commission and incentives may be paid and if so, would be included in the overall costs. Unit trusts are traded at ruling prices and can engage in borrowing and scrip lending. Future pricing is used. This Fund may be capped at any time in order to be managed in accordance with the mandate. Declaration of income accruals are made bi-annually. Fund valuations take place at approximately 16h00 each business day. Fund of Fund valuations take place 10:00 the following business day. Purchase and repurchases requests may be received by the manager by 12h00 each business day. Performance figures from Indequity Investment Managers Ltd are for lump sum investments using net asset value prices with income distributions reinvested. A schedule of fees and charges and maximum commissions is available on request from Indequity Investment Managers Limited. A fund of funds invests only in other Collective Investment Schemes, which may levy their own charges, which could result in a higher fee structure for these portfolios.
